YOU. COME TO SEE US.

THE ELBA CLIPPER MARCH 13, 1969

Everyone has an opinion when the subject of the sit-ins, sleep-ins, ect, at the nation colleges. Attorney Garth Lindsey has been heard several times to advocate a sure fire way to put a stop to it all and still allow EVERYONE to have a degree from the college of his or her choice. "Give out sheepskins along with the birth certificates," says Lindsey. Let the parents select any college in the nation and receive a degree for their child immediately. This would leave the schools open for those who want and are capable of getting an education! If someome did get into a college and start acting up he should be reminded that he already has a degree to please society and the he should be put out to work, according to Attorney Lindsey. This will never come to pass, of course, but when you stop to think about it - How many of the college students today are there because 'it is the thing to do?''

We formed an opinion about the Elba courthouse several weeks ago that we were right proud of but someone else came up with a better one as usual. We had suggested that a new one should be built and the site of the present building be used as a downtown parking lot. We now agree to the suggestion that it be made into a small park or flower garden area. This would help the looks of the downtown area a lot and it would leave a better impression on those who come

We withdraw our threat to "work over Donnie Morrow" Donnie has been in Kansas City for several weeks working on a movie for the Army and missed several council meetings. He came in the other day working like a ball of fire! He was not present for any of the many meetings with representatives of the rubber plant planning to locate in Elba but he made up for it by jumping in and helping Sam Sawyer with drive to raise the money.

While we are on the rubber plant, Mayor Brunson has been going out of his way to keep us informed about the developments in the projects. No papers have been signed as of yet but representatives of the company told Brunson on the telephone last week "We are Capitol to supplement his GI check. proceeding under the assumption that we are coming to Elba," . . . Ya'll come.

There was an advertisement in last week's Clipper notifying everyone that the Elba School system was

HEW order) Freedom of Choice Plan for ALL grades. It is a known fact that the system is under court order, by Judge Johnson to close grades one and two and grades 10, 11, and 12 at Mulberry Heights. Still you got freedom of choice according to somebody. It is a case of the left hand not knowing (or caring) what the right hand is doing.

Elba is just at the point of exploding! All signs point to Elba growing at a fast pace during the coming years. Before the City gets into a real bind about supplying road work and services to newly opened subdivisions, we think the Council and Planning Commission should list some requirements for accepting a new subdivision. This should make it mandatory for all streets to be paved, curbed and guttered; water and sewage pipes installed and CITY lights available to each lot. There might be others, but we are confident the members of the Planning Commission know more about this than us.

Parking in downtown Elba is a touchy subject with merchants and shoppers alike. The City Council is now at the forks of the road concerning this subject. They are holding a meeting next Monday night at 6 p.m. to discuss this with the merchants and other interested citizens. They can either restrict parking with meters or some other method or they can leave it as it is - no time limit is enforced anywhere in town. If you want to be heard on this subject, attend the meeting in the courtroom of the Elba courthouse on Monday Night.

Well, we have entered another chapter in the hassle with General Telephone over the rates and service in this area. The Public Service Commission granted them a rate increase on Monday and the company says it is not enough and Governor Brewer says it is too much when you consider the service we receive.

### THE RUGGED INDIVIDUAL

young man lived with his parents in a public housing development, he attended public school, rode the free school bus, participated in the "free lunch" program, played in the State parks, swam in the City pool. He entered the Army and, upon discharge kept his National life insurance. He then enrolled in the State University, working part time in the State

Upon graduation, he married a Public Health Nurse, and bought a farm with an FHA Loan. He then obtained a Small Business Administration Loan to go into business. A baby was born in the County Hospita operating under the court ordered (would you believe He bought a ranch with the aid of another GI Loan and obtained "emergency feed" from the government.

> Later, he put part of his land into the Soil Bank. His parents live comfortably on the ranch with their Social Security and Old Age Assistance checks. REA lines supplied electricity. The Department of Agriculture helped clear the land. The County Agent showed him how to terrace it. Then the Government paid part of the costs of a pond and stocked it with fish. He was guaranteed a sale for his farm products by a Federal Agency.

> Books from the public library were delivered to his door. He banked money which a Government Agency

THEN ONE DAY HE WROTE HIS CONGRESSMAN: "I wish to protest excessive Government spendin and high taxes. I believe in rugged individualism. am opposed to all socialistic trends and I demand a

# DAKKE

THE CHURCH FOR ALL ALL FOR THE CHURCH The Church is the greatest factor or itual values. Without a strong Churc neither democracy nor civilization e vive. There are four sound reason egularly and support the Church. Th ldren's sake. (3) For the sake of hi nmunity and nation. (4) For the s.

why every person should attend serv

the Church itself, which needs his

church regularly and read your Bib.

She's frightened. She's seeing the world for the first time through dark glasses. It's no wonder you and I are frightened. Ever since we were old enough to reason, we have been seeing the world through dark glasses. It's just as Paul said: "Now we see through a glass, darkly; but then face to face.'

We spend our years wondering why things happen as they do . . . why hatred flourishes and love withers . . . why sorrow seems inevitable and joy so rare. Apparently, we were not meant to understand . . . not here! Some truths God has revealed to us: these our Churches teach. Other truths God will not day our Churches strive.

reveal until another day; to prepare us for that Until at length we gain that complete vision, ve are happiest and strongest when we live faithfully in the truth already revealed. Even with dark glasses a man can see as long as he walks toward the Light.

> MORE HELP FOR THE SICK pharmacy has greatly changed. Especially since it has been required that pharmacists must attend their College of Pharmacy for at least five years, before they can take their examination to become a registered pharmacist. Pharmacy colleges now have seminars to teach the past graduates about the new drugs, which often are so potent that much care is required to dispense them safely. Pharmacists do less compounding and have the needed extra time to protect you. Our local and national associations bring us new information to keep up to date. We can answer any ethical ques-
